Dear Child Care Professional:

Young children learn through exploration and hands-on experiences with their environment. Establishing a developmentally appropriate environment lays the foundation for learning to occur. When appropriate activities are provided, children create their own learning that is suited to their age and stage of development.

The purpose of this letter is to invite you to the CC class, Creative Activities. Creative Activities is a 15-hour specialized course developed to provide training and education to assist caregivers as they organize and plan curriculum that provides choice and creativity. Creative Activities is one CC course that builds upon Child Care Orientation Training (CCOT). CC will provide in-depth training in areas that are of concern to caregivers. CC consists of six courses: Child Development: Birth to Three, Child Development: Three to Five, Child Development: Five to Eight, Creative Activities, Guidance & Behavior Management and Health & Safety.

This course includes the following lessons: Creativity and Creative Play, Art, Language Arts and Dramatic Play, Music and Movement, and Math and Science. Creative Activities combines basic information, application, activities and resources that will provide a broader understanding of these important subjects. Graduates will be awarded certificates upon completion of fifteen hours of training. Enclosed with this letter, you will find more information about the times, dates and location of the Creative Activities training course.

Sincerely,

Creative Activities Trainer
